CMT - Constant Maturity Treasury Rate

PLC - Public Limited Company

TIPS - Treasury Inflation Protected Securities

- (a) Non-income producing security.
- (b) The rate shown represents the 7-day effective yield as of June 30, 2024.
- (c) The rate shown is the effective yield as of June 30, 2024.

Poplar Forest Cornerstone Fund Summary of Fair Value Disclosure as of June 30, 2024 (Unaudited)

The Fund utilizes various methods to measure the fair value of its investments on a recurring basis. Accounting principles generally accepted in the United States of America ("U.S. GAAP") establish a hierarchy that prioritizes inputs to valuation methods. The three levels of inputs are:

Level 1 - Unadjusted quoted prices in active markets for identical assets or liabilities that the Fund has the ability to access.

Level 2 - Observable inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly or indirectly. These inputs may include quoted prices for the identical instrument on an inactive market, prices for similar instruments, interest rates, prepayment speeds, credit risk, yield curves, default rates and similar data.

Level 3 - Unobservable inputs for the asset or liability, to the extent relevant observable inputs are not available, representing the Fund's own assumptions about the assumptions a market participant would use in valuing the asset or liability, and would be based on the best information available.

The following is a summary of the inputs used to value the Fund's investments as of June 30, 2024:

		Level 1	<u>Level 2</u>	Level 3		Total
